Re: Off-Site Groundwater Monitoring Plan (September 15, 2015)

Dear Mr. Clarke:

The Land Restoration Program ("LRP") of the Maryland Department of the Environment ("the Department") has completed a review of the revised Off-Site Groundwater Monitoring Plan dated September 15, 2015 for the former Kop-Flex property and approves the Off-Site Groundwater Monitoring Plan for implementation.

The LRP will continue to provide oversight of the activities set forth in the plan and submit semi-annual invoices to Emerson Electric Company for project oversight costs. If you have any questions, please contact me at (410) 537-3493.

Sincerely,

Richelle Hanson, Project Manager
Voluntary Cleanup/Brownfields Division
